Students logical programing skills are not upto to the level. For improving their logical skills students can work on the		

free platforms like Hackerearth, Geeks for Geeks, Hackerrank. It really gonna help them to improve and polish their logical skills.

**What do you look for in engineering students when you visit a campus for recruitment?**

(i) Logical skills.

(ii) Problem understanding and their approach.

The faculty have 7 patents on their name. The region being mostly consisting of business community, start-ups and internship development are encouraged and 7 students so far have set up their own businesses and 6 students engaged in start-ups.

#### **Charting the Path Forward**

The Institution's accomplishments in waste management research are not just a reflection of its past and present but are also future growth avenue. Plans are afoot to establish a dedicated sustainable waste management research hub, attract global talents, and deepen the existing collaborations.

#### **Conclusion: A Legacy and a Promise**

The Institution's remarkable performance in sustainable waste management research serves as an of its priorities, vision, and commitment to global well-being. In the face of escalating environmental concerns, the Institution stands tall as a beacon of hope, leading the charge towards a more sustainable future. It is a legacy of excellence and a promise of continued innovation.
