## PROJECT SHIKSHA

NIRMAAN has been working to better the lives of needy students via education ever since it was established in 2013 to support literacy and higher education in colleges. The main initiative of NIRMAAN BKBIET, Project Shiksha, promotes education for those from underprivileged backgrounds. Since 2013, the NPC has assisted more than 1,000 underprivileged children.

The goal is to ensure that children from economically and socially marginalised families have access to a quality education. Individuals can participate in and assist in the education of girls through the Shiksha Project

## PROJECT UDAAN

In the context of Project Udaan, we conduct clothing drives during which our crew visits many bastis and distributes clothing in line with the season. We have 4 to 5 bastis where these drives are completed as part of this project. In every two months, the drive is conducted as usual. We offer clothing for adults of all ages as well as toys for their children.

Additionally, surveys are often carried out to determine their needs, and information is gathered to operate various initiatives or examine various methods of assistance.

## PROJECT UTSHAH

This project is centred on the vision to empower women, in which we provide vocational training that enables women to make career choices. We also provide machinery, such as tailoring machines, so that they can work, and we also provide work to them.

Because schools require uniform, our work is to connect those women with the school so that they can grow. Most of the working women under this project are from nearby basti areas so it's been easy to work with them.

Plus, we also organize awareness campaigns. Such as during COVID times, there was mask distribution and awareness programmes were held.
