

PROGRAM SPECIFIC OUTCOMES (PSO) – Department of Mechanical Engineering

These are what the students should be able to do at the time of graduation. The PSOs are program specific. PSOs are written by the department offering the program.

PSO1	Show an awareness of contemporary issues. Demonstrate awareness of current issues and challenges in the field of mechanical engineering and develop the ability to address them effectively and ethically.
PSO2	Participate and succeed in competitive examinations. Participate and excel in competitive examinations, demonstrating a commitment to continuous learning and professional development.

Program Educational Objectives (PEOs) - Department of Mechanical Engineering

Program Educational Objectives Essentially Answer the Question: Why does the Program exist in the first place? It has to be answered by the management in Consultation with all the Stakeholders!

PEOs	Program Educational Objectives Statements
PEO1	Impart knowledge of mathematics, basic and applied sciences to be used in Mechanical Engineering.
PEO2	Able to identify, formulate and solve mechanical engineering problems based on data interpretation, design, experiment and analysis of results.
PEO3	Learn effective communication skills and to develop team work spirit
PEO4	To get on well awareness of ethical, professional and environmental implication of work in societal and global context.
PEO5	Able to learn modern engineering tools, techniques, skills necessary for engineering work.
