

BKBIET has been **accredited by NAAC** (An Autonomous Institution of the UGC) for all courses both in UG and PG of the institute. It's worth a mention that, BKBIET has achieved it in **First Attempt** itself. Also, among all the Institutes under BTU, Bikaner (Rajasthan) currently offering UG and PG Engineering courses, BKBIET has entered within a top few Institutes to be accredited by NAAC. These achievements have opened the flood gates of opportunities for the students studying in various courses in these institutions. The most significant ones are as follows:

Quality Academics: NAAC demands **best practices** to be followed, and hence students get the best exposure. Improved academics, and access to labs, workshops, opportunities, projects, etc.

Student Exchange Program: After NAAC accreditation the students of BKBIET will now have increased exposure to opportunities of participating in student exchange programs in collaboration with **premium universities of India and abroad**. This would help the students access greater knowledge about the differences in the cultural, geographic, and financial paradigms along with the varied teaching pedagogy.

Placements: The students of BKBIET will now be eligible for placements in such multinational companies that collaborate only with NAAC accredited organizations for conducting campus placements. It **expands placement opportunities for students**.

Foreign Education: The students now can avail preference in the screening of applications submitted to **premier universities of U.S, U.K, Australia, etc**.

Easier Access to Govt. Grants: With NAAC accreditation, students of BKBIET will witness a dramatic increase in the acceptability of their research projects for funding by government agencies like **DST, AICTE, DRDO** and many more.
